Work & Experience

During my tenure at Devriser LLC as a full-stack junior developer from April to July 2023, I gained valuable experience in designing and implementing a multi-tenant database architecture. This enabled efficient data storage and management for multiple clients. I also contributed to frontend development, focusing on user-friendly interfaces and seamless integration with backend functionalities.

PROFESSIONAL SUMMARY

With 3 months of front-end and back-end development experience at DevRiser LLC, I'm proficient in HTML, CSS, JavaScript, Node.js, and React. Skilled in data structures, algorithms, and database/API integration, I deliver high-quality work with attention to detail. A proactive problem solver and collaborative team player, I'm dedicated to advancing your organization's development goals
